1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/12/08 has been entered.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 15 and 18-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 15, it is unclear whether the "two ... plates" are the same as the "movable plates" set forth in claim 1 or additional plates.

In claim 18, it is not clear what is meant by "end portions of the cross bar ... movable relative to the ... cross bar". There does not appear to be any support for this feature in the disclosure as originally filed; it is believed applicant may have meant to refer to the slidable receivers.

In claims 19 and 22, the terms "relatively rapid" and "rapid" are indefinite, as extensively noted in prior Office actions.

Similarly, the meaning of the phrase "facilitating rapid connection ..." in claim 19 would vary dependent on the level of skill of an operator and therefore presents no meaningful or ascertainable limitation.

4. Claims 1-5, 7, 10, 12-14, 16, and 17 are allowed.
5. Claims 15, 18, and 19-24 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. Applicant's arguments filed 8/22/08 have been fully considered and, in conjunction with the amendments to independent claims 1 and 19, are persuasive with respect to the prior art rejections.

As applicant makes no further arguments with respect to the 112/2<sup>nd</sup> par. rejection, no comments beyond those presented in the previous Office actions are deemed necessary.

7. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued

examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
